Corn feed meal Organic

Corn feed meal organic is released during the processing of maize into maize semolina flour and maize flour for the food industry. The product consists of bran, germs and parts of the flour-containing core and can be used perfectly as a replacement for CCM.

The product complies with applicable laws and regulations. Mycotoxins, insecticides, pesticides and herbicides are examined according to the applicable GMP+ FSA standards. The product is organic (according to Regulation (EC) 889/2008 and 2018/848) and non-GMO (according to Regulation (EC) 1829/2003 and 1830/2003).
