Organic grain mix

Organic grain mix is a mix of plant material of different types of by-products from the food industry. The Organic Grain Mix is a mix with a constant composition and consists of products from the grain and potato processing industry. By mixing dry products with products that have a higher moisture content, the product is better and faster available to micro-organisms in the biogas installation.

Valid from 28 July 2022

Downloaded on 02 February 2026

DM	65.0
Ash	9
Phosphor (P)	0.3
Nitrogen (N)	5
Potassium (K)	0.5

Biogas yield	375
Methane %	59

Levels are based on averages and stated in grams per kg of dry matter, unless stated otherwise. Changes in product composition are reserved.

Logistics & Storage

Transport	Bulk with walking floor, tipper or container truck
Storage	Bunker or silage
