# Flushing water

Flushing water is obtained when barn air is purified with either a biological or a chemical air washer. This air washer removes ammonia, fine particulates and odors from the air, the sludge water is collected and can be used as an alternative fertilizer.

**Valid from 28 July 2022**

Downloaded on 02 August 2025

Phosphor (P)	40.0
Nitrogen (N)	1

Levels are based on averages and stated in grams per kg of dry matter, unless stated otherwise. Changes in product composition are reserved.

## Logistics & Storage

Transport	Liquid with tank truck
Storage	Silo
