# Potato flakes

Potato flakes is a co-product released during the production of food grade potato flakes. The product is a collection of different food grade flakes that do not match particle size, color or packaging as well as start-up production. The dehydrated potato flakes are made from 100% potatoes.

The potatoes are washed, steam peeled and cut. Subsequently, the product is blanched, steam boiled and finally dried. The product is high in gelatinized starch and has an European origin.

The product complies with applicable laws and regulations. Mycotoxins, insecticides, pesticides and herbicides are tested according to the GMP+ FSA standards. The product is non-GMO (according to Regulation (EG) 1829/2003 and 1830/2003).

**Valid from 28 July 2022**
