Dried mashed potato

Dried mashed potato

For the production of mashed potatoes, the potatoes are peeled and cut into smaller pieces and then blanched to gelatinize the starch. After mashing the product is (partly) dried. During the start-up and running of the production lines, co-products are released. These are collected and further dried. Dried mashed potato has an European origin and is made from 100% potatoes.

Quality

The product complies with applicable laws and regulations. Mycotoxins, insecticides, pesticides and herbicides are tested according to the GMP+ FSA standards. The product is non-GMO (according to Regulation (EG) 1829/2003 and 1830/2003).

Valid from 28 July 2022
