

## Livestock

# Feed beer

Feed beer is a residual product from the beer brewery. It is a residual flow that is released during the process of brewing beer. The energy value of this product is very high because feed beer contains about 4% alcohol on a product basis.

### Quality

The product complies with laws and regulations. Mycotoxins, insecticides, pesticides and herbicides are tested according to the GMP+ FSA. The product is non-GMO (according to Regulation (EC) 1829/2003 and 1830/2003).

## Valid from 24 December 2022
